

FLEET VALUE CHECKLIST

In a rapidly changing world, you need a fleet that can keep up and provides maximum value at every step. Use the checklist below to make sure you're getting the most out of your fleet and identify areas that could be working harder.

Theme	Considerations	How does your FMO/s stack up?		
		Red	Amber	Green
 1. Commercial	We have visibility over our fleet's whole life costs at every stage of the vehicle lifecycle.			
	We feel we're getting the most value out of our fleet.			
	Our FMO is regularly reviewing our fleet with us			
 Discover how disability support organisation Novita unlocked cash flow with the right partner.				
 2. Customer Service	We have a dedicated Relationship Management team, who are responsive to our needs and help us proactively manage our fleet program.			
 Peace of mind and customised vehicles are at the core of Dotmar's fleet. Learn how they got there.				
 3. Risk Management & Safety	We can easily manage our drivers and make sure they are compliant through technology.			
	We have strategic risk management in place that ensures driver safety and mitigates reputational safety.			
 Learn about Australian Red Cross's robust processes that help them minimise risk with confidence.				
 4. ESG/Sustainability	Our FMO helps us meet and report on our ESG and sustainability objectives through initiatives such as carbon offset benchmarking and assessments.			
 A refreshed fleet of customised EVs help University of Tasmania progress towards its carbon emissions goals with experts by its side.
